Subject: Phase I RI Report  
Phase II RI/FS Work Plan  
Butler Mine Tunnel Site

Dear Mr. Towle:

This letter is to confirm our telephone conversation on May 31, 1988 in which I informed you that the Respondents were willing to agree to your comments itemized in your letter of May 16, 1988.

You and I agreed however that the formal letter of response to EPA would await clarification concerning the "Mine Subsidence Flushing Project" proposed for the Heidelberg Colliery nearby. You informed me that Kathy Shine hoped to have the matter satisfactorily resolved possibly this week and that you would let me know the results when they occurred.

Very Truly Yours

A.B.M. Houston, Consultant  
Respondents' Project Coordinator
